SEWANHAKA CENTRAL HIGH SCHOOL DISTRICT

Comprehensive Safety Plan

Policy Statement

The Sewanhaka Central High School **District-Wide School Safety Plan** (as required by the SAVE Law – Safe Schools Against Violence in Education – Commissioner of Education Regulation 155.17) has been established to provide for the safety, health and security of both students and staff and allows for input from the entire school community. This particular component of Project SAVE is a comprehensive planning effort that addresses risk reduction/prevention, response and recovery with respect to a variety of emergencies, which may occur in the school district and its component school buildings.

The Board of Education has appointed, under the direction of the Superintendent of Schools, a **District-Wide School Safety Team** to develop, implement and maintain all provisions of the Plan. After a public meeting, this plan was adopted by the School Board on June 27, 2017. This Plan incorporates all **Building-Level Emergency Response Plans** that have been developed by the **Building-Level Emergency Response Teams** appointed by the **Building Principals**. In the event of an emergency or violent incident, the initial response at an individual school building will be the responsibility of **the Building Level Emergency Response Team**. Upon activation of the School Building Emergency Response Team the Superintendent of Schools or designee and appropriate local emergency response officials will be notified. The nature of any given emergency will dictate the degree of interaction with both State and Local Emergency Response Agencies. The local BOCES Health & Safety Office will assist in development of protocols for accessing these services.

The District-Wide School Safety Plan was made available for public comment 30 days prior to its adoption and provided for participation of the entire school community. The District-Wide and Building-Level Plans were formally adopted by the School Board after at least one public hearing. As required by law, the District-Wide School Safety Plan is posted on the school district website by October 15th of each school year and will be reviewed annually by the District-Wide School Safety Team by September 1st of each school year. Building-Level Emergency Response Plans will be updated by September 1st of each school year by the Building-Level Emergency Response Team and filed with both State and Local Police by October 15th of each school year.

The Sewanhaka Central High School District refuses to tolerate violence or threats of violence on school grounds and by implementation of this Plan will make every effort to prevent violent incidents from occurring. We will provide the appropriate authority and budgetary resources in support of this effort. Violence prevention is the responsibility of the entire school community and we encourage participation of all individuals. Our Plan requires the prompt reporting of all violent incidents or threats and assures that victims or reporters of incidents of violence will not be discriminated against.

A copy of the Sewanhaka Central District-Wide Plan is available upon request and is available at Central Administration in the office of the Superintendent of Schools and on the District's website. Although the Building-Level Emergency Response Plans are linked to the District-Wide School Safety Plan, in accordance with Education Law Section 2801-a, the **Building-Level Emergency Response Plans will remain confidential and not be subject to disclosure**. This will further ensure safety at the building-level and reduce the potential for planned sabotage.

The Team will meet a minimum of four times a year and minutes of each meeting will be kept. An agenda will be established prior to each meeting. The Team will maintain responsibility for auditing the District-Wide School Safety Plan to determine its success in violence prevention. Some of the team’s primary responsibilities will include:

These agencies may include but not be limited to local Police and Fire Departments, Rescue and Ambulance Services, Local Emergency Management Offices and the local BOCES Health & Safety Office.

⇒ **Implementation of School Security**

School safety personnel will help carry out the Sewanhaka Central High School District Comprehensive Safety Plan and may include anyone in the school community. Early Detection of Potentially Violent Behavior:

The Sewanhaka Central High School District-Wide School Safety Team makes recommendations for appropriate annual training for students and staff in violence prevention and mental health (on line training may be utilized). Training includes early warning signs of potentially violent behavior and early intervention/prevention strategies. Training is conducted by in-house staff, local agencies or others as deemed appropriate. Training for students and staff will be conducted annually and include:

Records will be maintained of all participants along with their evaluation of the training program. Trainers will be knowledgeable and familiar with our District-Wide School Safety Plan.

Hazard Identification:

As part of each Building-Level Emergency Response Plan, each Building-Level Emergency Response Team will determine sites of potential emergencies that may impact the individual school building. Such sites may include but not be limited to all school buildings, properties adjacent to schools, off-site athletic fields, buses and off-site field trips, and specifically defined areas of current concern as identified by Building-Level Staff.

Responses to Violence

(Incident reporting, Investigation, Follow –Up, Evaluation, and Disciplinary Measures)

All incidents of violence, whether or not physical injury has occurred (verbal abuse, threats of violence, etc.), should be reported immediately and documented on the **Individual Incident Report (IIR)**. With the realization that employees and students may otherwise be reluctant to come forward, we will maintain confidentiality. Individuals will be assured that there will be no reprisal for reporting their concerns. Incidents will be reported as follows:

The School Building Principal/Administrator or Designee will be responsible for receiving and responding to all incident reports including anonymous reports. Information on the reporting process for students and staff will be provided as part of the violence prevention training program. Each incident will be reported to and evaluated by the District-Wide School Safety Team (Threat Assessment Team) for the purpose of compiling data and evaluating the Violence Prevention Program.

Relationships have been established with local law enforcement officials and emergency response agencies at the building level. Representatives from these agencies are asked to participate on Building-Level School Safety Teams.

Reporting:

Once an incident has been reported, and depending on its severity, the School Building Principal/Administrator or Designee will assume responsibility as the Incident Commander.

- Report it to the local Police Department.
- Secure the area where the disturbance has occurred.
- Ensure the physical safety/medical management of students/staff remaining in the area as soon as possible.
- Ensure that while responding to the incident, the remainder of the building remains appropriately supervised.
- Quickly assess the area of the incident to determine damage as a result of the incident and if it is safe to remain. If necessary, evacuate or shelter as per Building-Level Emergency Response Plans.
- Provide incident debriefing to students/staff as needed. Notify parents.

Investigation:

After an incident has occurred the Threat Assessment Team will conduct a detailed investigation. It is the purpose of the Team to focus on facts that may prevent recurrence, not find fault. The Team conducting the investigation will:

- Collect facts on how the incident occurred.
- Record information.
- Identify contributing causes.
- Recommend corrective action.
- Encourage appropriate follow-up.
- Consider changes in controls, policy and procedures.

Follow-up:

The Sewanhaka Central High School District recognizes the importance of responding quickly and appropriately to the medical and psychological needs of students/staff following exposure to a violent incident. All individuals affected by a violent act in the school district will be provided with appropriate medical and psychological treatment and follow-up. Provisions for medical confidentiality and protection from discrimination will be included to prevent the victims of violent incidents from suffering further loss.

Evaluation:

The Sewanhaka Central High School District-Wide School Safety Team (Threat Assessment Team) is responsible for ensuring that an initial school building security analysis is conducted and periodically re-evaluated. These physical evaluations will focus on the identification and assessment of school building security hazards and address necessary changes in building practices. These evaluations will review the potential for different types of violent incidents including bomb threats, hostage-taking, intrusions, and kidnapping. Professionals will be utilized from local law enforcement and private consultants as necessary.

Disciplinary Measures:

The Sewanhaka Central High School District Code of Conduct will be the basis for determining the appropriate disciplinary measures that may be necessary.

Code of Conduct:

The Sewanhaka Central High School District has created a detailed Code of Conduct to describe the expected behavior of students, staff and visitors to school buildings and the disciplinary actions resulting for violations of the Code. The Code, which is communicated to all students/staff and parents, serves as a major component of our violence prevention program. The Code is evaluated annually and revised as necessary to reflect changes in school policies and procedures. A copy of the Code of Conduct will be posted to the District Website and made available to students, parents, staff and community members.

Emergency Response Protocols

Notification and Activation (Internal and External Communication):

Quick and accurate contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships will be established by participation of local response officials on Building-Level Emergency Response Teams. These individuals and appropriate means of contact will be documented in the Building-Level Emergency Response Plan.

Internal communication is also of prime importance and is specifically defined in the Building-Level Emergency Response Plan. Depending on the nature of the emergency, some of the communication methods include telephone, fax/e-mail, district radio system, NOAA weather

radio, intercom, local media, emergency alert system, cellular phones, and others as deemed necessary. Appropriate notifications and methods are determined by the Sewanhaka Central High School District-Wide School Safety Team.

The Superintendent of Schools recognizes his responsibility to notify all educational agencies within the school district of a disaster and has established the following notification list.

In general, parent/guardian notification will be conducted by means of the ConnectEd phone tree of emergency contacts established in each school building. However, in some cases it may be necessary to use other means such as local media. Prior arrangements will be established with the appropriate media.

The Sewanhaka Central High School District recognizes that many different types of emergency situations may arise resulting in emergency specific responses. A detailed listing of emergency responses are included in each School Building Emergency Response Plan specifically addressing Criminal Offenses, Fire and Explosion, Medical Emergencies, Natural Hazards, System Failure and Technological Hazards. Each Building-Level Emergency Response Team will be responsible for reviewing and updating these responses and communicating them to students and staff. The following emergency situations are of prime importance.

Bomb Threats:

All Sewanhaka Central High School District administrators are familiar with the Bomb Threat Standards outlined in the Building-Level Emergency Response Plan so that appropriate decisions may be made depending on the exact nature of the situation. Issues such as searches, pre-clearance, weather conditions, evacuation, sheltering, notification, returning to the building and false bomb threat prevention are addressed in the Building Plans. The FBI Bomb Threat Call Checklists are

available at phone reception areas as part of the School Building Training Plan which is distributed in each school building.

Hostage Taking:

The Building-Level Emergency Response Plan (Hazard Specific Response Guide) procedures will be followed in the event of a hostage situation. In general the following response actions will be taken:

- The first person aware of the situation will immediately notify the principal's office and call 911.

- The school principal or designee will notify the School Superintendent. No response to the media will be given at this time.
- The school principal or designee will turn over authority to the police upon their arrival and assist as requested.

Intrusions:

The Building-Level Emergency Response Plan (Hazard Specific Response Guide) procedures will be followed in the event of an intrusion. In general, the following response action will be taken:

- The first person becoming aware of an intruder or suspicious person will immediately report this information to the principal's office.
- The principal or designee will approach the intruder to determine the nature of their presence and ask them for identification.
- The principal or designee will accompany the individual(s) to the proper office or if no acceptable purpose can be ascertained, ask the individual(s) to leave. The principal or designee should ensure that the individual(s) has exited the building and alert staff to prevent unrecognized re-entry.
- If the individual(s) refuse to leave, inform them that they are in violation of the law and that the police will be notified. Notify building security if available and Dial 911 or other appropriate emergency notification.
- **If the situation escalates, plain language** will be utilized to notify all teachers to lock doors. Once lockdown is announced, administrators will evacuate students who have been locked out of their classroom or are in public areas. Students will be evacuated to a safe area outside the building as per normal evacuation procedures.
- The School Superintendent's office will be notified so appropriate resources can be made available to the school district.
- The building principal should be prepared to relinquish authority and assist the first emergency responder from the police or emergency services.

Kidnapping:

The Building-Level Emergency Response Plan (Hazard Specific Response Guide) procedures will be followed in the event of a kidnapping. In general, the following response action will be taken:

- During school hours, **when a student has already been documented as present**, the first person aware of a kidnapping or missing student will immediately notify the principal's office who will obtain student information and photo I.D. School building staff and security personnel will search the building and also utilize the public announcement system.
- Parent/guardian will be notified. If student is not found, police will be notified.
- The school principal will turn over the investigation to the police upon arrival and assist as requested. No information is to be released to the media.
- Parents will be notified immediately if the student is located.
- During school hours, **when a student has not arrived at school**, parent or guardian will immediately be contacted. Parents should be asked to contact the school if the student is located.
- If student is not legally absent he/she could be lost, a runaway or truant (determine if any friends are also missing).
- The student's means of transportation to school should be reviewed. If student is not located, the police should be notified. Student information and photo I.D. will be obtained.
- The school Superintendent will be notified.
- The school principal will turn over the investigation to the police upon arrival and assist as requested. No information is to be released to the media.
- Parents will be notified immediately if the student is located.
- After school hours, **when a student has not arrived at home**, the school may be notified by a concerned parent/guardian.
- Gather any information available on the student and their departure from school.
- Advise parent/guardian to contact friends.

Emergency Assistance from Local Government:

Depending on the nature of the emergency, school districts may need to obtain assistance from local government agencies. During an emergency school districts will contact 911 to obtain emergency services. Other agencies that may be contacted to obtain assistance may include the Red Cross, Fire Department, Local Police, Nassau County Office of Emergency (Commissioner), Nassau County Department of Mental Health, Nassau BOCES District Superintendent, Private Industry Groups, Religious Organizations, among others. For specific assistance beyond the scope of the School District's resources, the Nassau County Office of Emergency Management will coordinate with State and Federal agencies and assist in all post-incident response. These contacts will be clearly delineated in the Building-Level Emergency Response Plans.

District Resources Use and Coordination:

Building-level Emergency Response Plans will address the identification, availability, and use of resources. This will include procedures for coordination of these resources including manpower and Chain-Of-Command.

Protective Action Options:

School Building-Level Emergency Response Plans, which are confidential, address the following response actions as determined by the nature of the emergency. Specific response actions are explained in detail in each building plan:

National Terrorism Advisory System (NTAS)

NTAS advisories – whether they be Alerts or Bulletins – encourage individuals to follow the guidance provided by state and local officials and to report suspicious activity. Where possible and applicable, NTAS advisories will include steps that individuals and communities can take to protect themselves from the threat as well as help detect or prevent an attack before it happens. Individuals should review the information contained in the Alert or Bulletin, and based upon the circumstances, take the recommended precautionary or preparedness measures for themselves and their families.

Bulletin:

Describes current developments or general trends regarding threats of terrorism.

Elevated Threat Alert:

Warns of a credible terrorism threat against the United States.

Imminent Threat Alert:

Warns of a credible, specific, and impending terrorism threat against the United States.

Individuals should report suspicious activity to local law enforcement authorities. Often, local law enforcement and public safety officials will be best positioned to provide specific details on what indicators to look for and how to report suspicious activity. The ***If You See Something, Say Something™*** campaign across the United States encourages the public and leaders of communities to be vigilant for indicators of potential terroristic activity, and to follow the guidance provided by the advisory and/or state and local officials for information about threats in specific places or for identifying specific types of suspicious activity.

Recovery

A District-Wide Post-Incident Response Team will respond in crisis situations to help provide disaster mental health services, as appropriate. Depending on the scope of the situation, the Nassau County Emergency Management Office may be contacted to help coordinate a County or State-Wide effort. The Post-Incident Response Team will consist of the Building’s Pupil Personnel Services, Psychologists and Social Workers.

Forms and Record keeping

The success of our Violence Prevention Program will be greatly enhanced by our ability to document and accurately report on various elements of the program along with training staff on our Plan. The following forms have been developed for this purpose and will be located in the Forms Section of the Building-Level Emergency Response Plan.

- Individual Incident Report (IIR)
- Self-Inspection Security Checklist
- Student/Staff Security Survey
- Bomb Threat Response
