Grade Expectations

AP Biology

Advanced Placement Biology is the equivalent of a first year college biology course. Lecture periods are held daily with lab periods given on alternate days.

1. **Grade determination:**
   a. Exams = 50%
   b. Quizzes = 20%
   c. Labs = 20%
   d. Homework = 10%

2. **Formal Laboratory Investigations:**
   All formal lab investigations will require a formal typed lab report. Lab reports must follow the rubric given. Graded lab reports will be kept in a designated lab notebook in the classroom. This is a MANDATORY component of the course.

3. **Extra Help:** during the school day or by appointment (it is highly encouraged students create study groups)

4. **Basic School Rules:** Students are expected to follow all school rules.

5. Students are expected to make-up any work missed within a reasonable time. See class syllabus for additional information. Found under my name- AP BIO on the Carey website.

Any questions, comments, or concerns please call the Science Office @ **539.9430**
